EDUCATION

Engineer Graduate from Faculty of Engineering,

Credit Hours System, Cairo University

September 2012 – June 2017

Minor: Water and Environmental Engineering; Major: Civil Engineering

Major GPA: 3.13/4.0 *Very Good*

Received a 75% Scholarship for 4 years due to my academic achievement and sustenance of it.

Graduation project: Qualitative and Quantitative Groundwater Analysis in Dry lands, GRADE (A)

Orouba Language Schools - IGCSE British system

September 2009 - June 2012

Graduation percentage 98.9%

A level Math A+, A level Biology B+, straight A's in O levels

WORK EXPERIENCE

CEDARE, Cairo, Egypt

September 2017- present

Program specialist of Environmental Governance Programme in Centre for Development and Environment in the Arab Region and Europe (Admin officer then became M&E officer with project coordination tasks)

- Work in coordination with the project manager and field coordinator.
- Monitor the program's activities on a regular basis.
- Responsible for basic administrative tasks like filing progress reports and keeping up with meetings.
- Assist the project manager in preparing quarterly/annual reports on projects' progress, writing proposals, and contacting international partners with progress in projects.
- Discuss and design development plans which are budget appropriate that correspond with the program's focus areas.
- Responsible for initial studies prior to implementing the projects including their monitoring and evaluation.
- Maintain the management information system of the program and responsible for the collection and analysis of different data in relation to the projects' activities.
- Provide quality control and technical advice on all activities related to data gathering and conducting surveys (qualitative and quantitative).
- Follow up on the implementation status of the projects' operational plans regularly.
- Support the project manager in researching, identifying and communicating with donors and development partners to build strategic relationships with them for the program's sustainability and visibility.
- Lead the development and operationalization of M&E system to ensure the fulfillment of the program objectives.
- Multiple travels to conduct monitoring field visits.

I have worked on: ○ GIZ funded "Improving Solid Waste Management and Health Services in Ezbet Allam- El Khosous—Qalyubeya Governorate."

- EU Joint Rural Development Programme funded “Good agricultural Practices on Geographic indication for sustainable production and increased marketing competence to enhance rural livelihood in Matrouh.”
- For the EU Joint Rural Development Programme funded “Sustainable investments in Solid and Agricultural Waste in Fayoum and Minya”
 - For the IUCN funded project “Healthy Ecosystems for Rangeland Development”

Qabila Media Production, Cairo, Egypt

October 2015-June 2016

Junior business developer

- Qualify leads from marketing campaigns as sales opportunities.
- Contact potential clients through calls and emails and present the company to potential clients.
- Led the creative team to design an internal marketing campaign proposal for a leading telecommunications company in Egypt.

LEADERSHIP/ ACTIVITIES

GAME: Young Mediterranean Ambassadors, Italy

April 2015- April 2018

Egyptian representative, supervised by creator of GAME; professor Massimo Guarascio from University of Sapienza, Rome, Italy

- Work in coordination with representatives in Mediterranean countries: Greece, France, Italy, Morocco, Tunis and Turkey to plan and tailor Michelangelo workshops yearly as well as represent GAME in any international events.
- Create an Alumni for GAME to have a solid network for everyone who works with GAME.
- Raise awareness about: environmental issues and what engineers around the Mediterranean do to deal with it, with focus on the differences and similarities, and, against discrimination based on gender or race or nationality by focusing on the common core of the Mediterranean.

Community of Mediterranean Universities (CMU) conference, Cairo

4th and 5th of November, 2017

Speaker with Professor Massimo Guarascio from University of Sapienza, Rome, Italy

- Introduced GAME as a non-profit organization and called for Unity and Co-operation among North and South of the Mediterranean.
- Explained the connection between environmental issues North and South of the Mediterranean and proposed a more global outlook on environmental issues.

The Mediterranean Workshop, Naples Italy

24th of October, 2017

Speaker

- Stressed on the importance of cultural exchange.
- Encouraged the exposure of young students to different cultures through GAME and similar organizations.
- Presented the trend of modified thinking of students after attending a GAME workshop which was summarized in more tolerance, understanding and acceptance of the different cultures.

Michelangelo workshops

April 2015 - Present

- 3rd workshop 2015- Rome: attended a 3-day workshop in Rome Italy and presented my research topic about “The Water Scarcity challenge due to Climate Change” during the climate and sustainable development session.
- 3rd workshop 2015- Rome: Nominated as Egyptian GAME ambassador for 2015-2016

- 4th workshop 2016- Rome: presented my research topic about “Socio-hydrology as a new thinking approach: the importance of integrating social sciences with engineering.”
- 5th and 6th workshops 2016- Rome: Published a call for applying for the workshop and nominated students as well as aided them with brainstorming for their personal contributions.
- 7th workshop 2017- Morocco: Published a call for applying for the workshop and nominated students as well as aided them with brainstorming for their personal contributions. Also presented my artistic contribution about “Similarities between the Arabic language and the Mediterranean languages— Promoting Cultural Unity and Tolerance.”
- 8th workshop 2018 – Cairo: Working with the Egyptian team in planning the next workshop which will be in March in Egypt.

Credit Hours Student Union

September 2013 – June 2017

- Water & Environmental Engineering Head Representative; class of 2017
- Aid my program coordinator with administrative tasks: create the schedules, counsel students who failed courses and design their class plan, act as the only point of communication between the professors and the students, monitor possible problems and offer solution after discussing with the program coordinator.

1st place winner team in EnTrans Solid Waste Management Term Project

December 2016

- EnTrans Consulting Limited is a Canadian engineering firm providing consulting services in environmental and transportation projects. Its main office is located in London, Ontario, Canada with a branch in Cairo, Egypt.
- My team’s research topic about “Solid waste management National Plan—Glass as a recyclable” discussed the existing management of glass waste in Cairo and included our proposals on how to increase the efficiency of the plan. We won 1st place according to 50% on the report and 50% on the final presentation.

Grundfos internship program, Denmark

August 2016

- Attended a one-week compressed internship program about pumps and their manufacturing and processing in Denmark's headquarters.

Waste Water treatment plants internship, Cairo, Egypt

August 2015

- Worked for a month as an observer of the largest capacity WWTP in Cairo as part of my summer training.

Third Arab water forum 2014

November 2014

- Attended a three-day conference discussing Water scarcity in the MENA region.
- Attended sessions about the water energy food nexus and enhancing agricultural water productivity in MENA region.

The institution of Engineering and Technology ‘Present around the world’ competition

June 2014

- Won 2nd place with my research topic about “*Desalination in Egypt—Challenges and opportunities*” presentation and was invited to represent Egypt in the finals event internationally.
- Presented to me a free membership in the institution of Engineering and Technology.

“From the roots of Harassment to the routes of combat” Sexual Harassment conference

July 2015

Project manager of the 3-day conference held in the Greek Campus, Cairo, Egypt.

- Create an emailing system to contact the registered attendees with details of the conference.
- Manage the daily program throughout the program life cycle.
- Plan the overall program and monitoring the progress.
- Manage the event’s budget and manage risks and issues and taking corrective measurements.
- Coordinate the teams and their interdependencies as well as manage stakeholders’ communication.

The International Model of European Union (IMEU)

September 2013-July 2015

- Bi-weekly articles for the IMEU magazine for the 1st year

- Nominated as Head editor and started the initiative of an online blog magazine for the editorial department.

Community Center, Cairo

August 2011

English and French teacher-- volunteer

- Teach basic English and French to illiterate individuals of ages varying from 4-5 years old to senior individuals.

Languages:

Proficient in English, Arabic.

Intermediate French

Beginner Greek
